

E-Cure Sdn Bhd

Investigative Consulting | Regulatory Strategy | Risk Intelligence

"Integrity is our axis. Growth is our mission."

The foundation of trust. The blueprint for success.

Our story

Founded with the ambition to combat economic crime through awareness and training, E-Cure Sdn Bhd has grown into a full-spectrum consulting firm trusted by business leaders, MNCs, and government stakeholders.

What sets us apart is not just what we do, but how and why we do it. We uphold integrity as a non-negotiable foundation in everything we undertake—because protecting your business requires more than just insight. It demands ethical courage, tactical precision, and a commitment to doing what's right.

Founder

DCP (Rtd) Datuk Dr. Hj. Yusoff Nook

Datuk Dr. Yusoff entered the Royal Malaysian Police in 1969 and rose to the rank of Deputy Commissioner of Police (retired 2002). He holds an LLB from the University of Dundee, an MBA from Brunel University, and notably earned a PhD in Economic Crime from the University of Stirling in the UK, making him one of the first—and likely the first—Malaysian police officers to complete a full doctorate in this field.

Post-retirement, he served with distinction as Advisor/Director of Security under the Sarawak Chief Minister's Office—a role he held for an impressive 17 years, making him the longest-standing State Security Advisor in Sarawak.

Leadership Philosophy: Integrity isn't optional—it is the standard. His insistence on “doing what's right, legally and ethically” has set the bar for standards in both personal and professional conduct.

“Improving personnel efficiency, removing ‘bad apples,’ and empowering honest and capable officers are essential steps to elevating law enforcement agencies’ capabilities in fighting commercial crime.”

CEO

Riduan Devaruban

A former law enforcement officer and seasoned strategist, Riduan leads E-Cure with a clear purpose: to restore trust, resolve complexity, and embed integrity into the heart of business. His background spans high-level investigations, crisis management, regulatory advisory, and ESG strategy—gained from both public service and senior leadership in the private sector.

With a sharp mind and an unshakable moral compass, he helps clients navigate sensitive commercial risks, internal misconduct, and regulatory uncertainty. Riduan's approach is bold but ethical, tactical but principled—ensuring results that are not only effective, but defensible.

At E-Cure, he champions a culture where truth has power, ethics are profitable, and integrity isn't just a value—it's a strategy.

*"The time is always right to do what is right."
— Dr. Martin Luther King Jr.*
